

Stop Medica Concentration; Let Democracy Breath

Dear Sir or Madam:I believe diversity of information is the core of the democratic process.

Please make all possible efforts to avoid out of control free enterprise destroy the heart of the democratic process. This proposed deregulation will have an effect of moving the country towards a dictatorship unchallenged thanks to the propaganda of unilateralism. You have a responsibility and the people of the United States depends on you. We need more diversity, not less. We need less commercials, not more. Other countries are advancing in this direction, let us not be the ones that have to emmigrate to lands of freedom in the next decades.

Sincerily,

Jose A Genua
